

VEHICLE IDENTIFICATION NUMBER & ENGINE NUMBER

The Vehicle Identification Number (V.I.N.) is stamped on the chassis in the right hand rear wheelarch area, and is also printed on a label stuck to the body in the front services compartment. The engine number is marked on a vertical patch at the left hand end of the forward face of the cylinder block, and is most easily viewed using a mirror.

Both numbers should always be quoted with any vehicle enquiries, as Factory records are filed against V.I.N., and specification change points are identified by V.I.N. or engine number. The vehicle licence number may not accurately reflect vehicle age, may also be changed during the car's life, and is an unreliable method of vehicle identification.

The V.I.N. comprises 17 characters, coded in accordance with European Economic Community (EEC) directives. For change point identification in Service Notes and Service Parts Lists, characters 10 (model year) and 15 - 17, or 14 - 17 (serial number) will be quoted. Note that the coding of the V.I.N. changed with the introduction of '98 M.Y. year

'96 & '97 Model Year

This technical diagram illustrates the assembly of a car seat. The main components are labeled with numbers 1 through 14. Part 1 is the seat backrest, which features a curved shape and a central panel with horizontal stitching. Part 2 is the seat cushion, shown below the backrest. Part 3 is a bracket or support piece located at the top of the backrest. Part 4 is a long, narrow metal rail with multiple mounting holes. Part 5 is a smaller metal rail or bracket. Part 6 is a small metal bracket. Part 7 is a long metal rail, similar to part 4. Part 8 is a small metal bracket. Part 9 is a small metal bracket. Part 10 is a small metal bracket. Part 11 is a small metal bracket. Part 12 is a small metal bracket. Part 13 is a small metal bracket. Part 14 is a small metal bracket. The diagram shows the relative positions of these parts and the types of fasteners (screws, bolts, nuts) used for assembly. Dashed lines indicate the alignment and movement of the parts during installation.
